

What is Everything Nature?

Why Açai?

- **The açai berry is a nutritional powerhouse**, containing more antioxidants than blueberries, red wine, and even green tea. Fabulous free radical scavenger!
- **Provides plenty of Omega Fatty Acids and Essential Amino Acids** that give the body the good fats and proteins necessary to maintain its optimal health.
- **It is an excellent source of the electrolytes: potassium and sodium**, which are necessary for recovery after exercise or strenuous activities. It's the perfect post gym supplement!
- **The anthocyanins in the berry help prevent premature aging.** Anthocyanins prevent oxidant agents from damaging the skin's connective tissue. Oxidation can lead to premature signs of aging. Beauty from the inside out!

Why Everything Nature?

- **It's the right thing to do.** Everything Nature is the first company that has formalized a co-op of juice processors and farmers in the Amazon. This company pays their farmers more than fair price, and offers its members stock in the company so they too can benefit from the growth and success of the company.
- **Everything Nature has unwavering standards of quality.** Because it controls over 40% of the açai production capacity in the world, Everything Nature can make sure that only the best product reaches the customers. The farmers in this co-op have been growing this amazing plant for generations spanning over 30 years, and have perfected the growing process resulting in the highest quality berries in the world.
- **The 4 goals of Everything Nature translates to outstanding results for everyone.** The main mission of Everything Nature has 4 components:

- *Empower the People*
- *Be transparent*
- *Share the knowledge*
- *Lead by example*
